It only takes a few minutes to register and asks the same questions you were asked for each of the other times you received a vaccine. When you enter the type of vaccine you want, the Callahan Center will appear on the screen. When you click on the Callahan Center on the screen it will show the appointment times available for you to choose and provide your insurance information, etc.

**Please, bring proof of your COVID vaccines to date & your insurance cards.** If you do not have insurance you can still get the vaccine. Even if you never received a previous vaccine for COVID this vaccine will protect you from hospitalization and death from COVID-19.

If you are not feeling well that day, please, cancel rather than putting others at risk. If you had COVID recently you should wait 90 days from your last symptoms to get the vaccine. **For more information, call 508-532-5980.**
