My Two Cities, a Story of Immigration and Inspiration

*Presented by Robin Stein and
Hanni Myers*

In 1938, Hanni Myers and her family escaped from Vienna to the United States at the start of World War II. Eighty years later, Hanni—a vibrant, energetic teacher, musician, hiker, mother and grandmother—sat down with Robin Stein to tell her story. The result is their book, *My Two Cities, A Story of Immigration and Inspiration*. Hanni hopes her story will give hope and encouragement to young people who immigrate to this country today.

Join us for a conversation about family history, traditions and the American spirit. Bring your own stories to share!

The Southern Book Club's Guide to Slaying Vampires is the best adult fiction book of 2020! Once you start reading it you won't be able to put it down. It follows Patricia Campbell and her neighbors in their book club as they face off with a new neighbor in their neighborhood. Their new neighbor just so happens to be a vampire. When We All Fall Asleep, Where Do We Go?

This debut studio album by American singer and songwriter Billie Eilish is moody, definitely dark and immersive, but with catchy pop hooks and beautiful harmonies and vocals. It has a timeless quality and is surprisingly sweet and tender at times. I listened one day on a lark and it's become one of my current go-to listens. – *Lena*

BOOK REVIEW

So You Want to Talk About Race

by Ijeoma Oluo

Available on Libby
as an eBook and
Audiobook, Hoopla as an Audiobook
and in our catalog.

Ijeoma Oluo is very bold and straightforward in this award winning book describing racial injustice in America. Each chapter focuses on a topic like addressing microaggressions, police brutality, the Black Lives Matter movement, the school to prison pipeline and other important issues that need to be addressed in today's America.

The content targets people who really don't want to talk about race. Oluo gives personal experiences with each chapter to help one empathize with the topic. This book will help one see a different standpoint, and is a call to action. – *Brigitte*

Update on Anatoly

Anatoly Prekrasnyy, a member of Team Framingham, ran an amazing virtual 2020 Boston Marathon for the [Friends of the Framingham Library](#) on Sunday, September 6, in San Diego in 100 degree heat! Anatoly said: .

This wasn't my best race, but it was still my favorite because I know I had support of all of YOU and I couldn't let you down. We raised over \$10,000 for @framinghamlibraryfriends which is just truly hard to fathom. When I was setting out on this journey I thought that I would be extremely lucky if I could raise \$3,000. However, the wave of overwhelming support that I received totally blew me away. I'm so happy that I have so many great friends.

I dedicate this marathon to my grandma Nelya who passed away 8 years ago, and I know she is watching from above and helping me along the way. But this marathon was also for all of my friends, Framingham Library and all heroes on the frontlines. You rock!

Anatoly

The Friends deeply appreciate Anatoly's efforts on our behalf, and all who donated and sent expressions of support. Special thanks go to the Alta Union House for hosting an event and sponsoring Anatoly's banner which was to hang in downtown Framingham during Marathon week, and to Dell Technologies for generously matching gifts donated by Anatoly's coworkers. The Friends also thank the staff of the Framingham Public Library for their ideas, design assistance, and enthusiastic support.

Seed Lending Library: Harvesting Cucumber Seeds

It's time to harvest seeds from your favorite vegetables. To harvest seeds from a cucumber (preferably from Seed Lending Library seeds), it must remain on the vine past the point where it is edible. It will change in color from green to yellowish, assuring it's time to harvest.

Scoop the contents of the cucumber into a jar, add filtered water, cover with a paper towel, and secure with a rubber band. Set the jar aside in a warm, sheltered spot to begin fermentation. Fermentation can occur in as little as one to three days and will be marked by the seeds sinking to the bottom and fuzzy mold growing on top. Once all your seeds have sunk, add additional water to clean them.

Any debris or unviable seeds will float to the top, making them easy to skim off and discard. Rinse the good seeds a few more times, strain them, and place them on parchment paper to dry. Once dry, store the seeds in a closed jar or ziploc bag and label them for next year's sowing. Stored in a cool dark place, cucumber seeds will remain viable for 10 years. This method also works for tomatoes. They will remain viable for about 6 years.

At home craft for October Bat Puppets

For visual instructions check out the step-by-step tutorial on our [YouTube Channel](#).

Materials:

- 2 paper plates
- Printable Bat Craft Template
- 2 Popsicle sticks
- Paint, paint pen, crayons or markers
- Glue
- A stapler or tape

Instructions:

1. Gather all of your materials. Print & cut out the bat template.
2. On the back of one of the paper plates, place the bat template across the lower quarter of the inner circle and draw around the upper part. Place your bat template in the middle of the paper plate and draw around that too.
3. Cut out the middle of your paper plate and the bat following all your drawn template lines. Paint or color the back of the cut paper plate and the bat black. Paint or color the front of a second paper plate blue.
4. Add some night time features like stars to your bat craft using paint, paint markers, or regular markers. You can give the house yellow windows or give your bat some fangs. It's up to you!
5. To make your bat puppet handle, glue together two popsicle sticks and glue the bat onto one end. Color or paint your popsicle stick handle if you'd like.
6. Lay the black paper plate on top of the blue paper plate with the bat puppet handle poking out between them at the bottom.
7. Staple, glue, or tape your two paper plates together leaving a section at the bottom open so the bat puppet can be moved from side to side.
