Gardening to Support Nature

by Dave Epstein, meteorologist and horticulturalist

WEDNESDAY MARCH 29, 7PM | MAIN LIBRARY, COSTIN ROOM AND [YOUTUBE LIVE](#)

This event is provided by the Framingham Garden Club in partnership with the Framingham Public Library.

In a world that is increasingly climatologically unpredictable, Dave will explain how important it is to not only use native plants but other ways to help mitigate a changing climate. By making small changes from how we use compost, when we clean our gardens and how we water, gardeners can become an integral part of the fight against climate change. The talk will also help gardeners know which plants can be helpful for pollinators and other fauna. [REGISTER](#) for the in-person event. **More information on our events calendar.** This program is supported in part by a grant from the Framingham Cultural Council, a local agency supported by the Mass Cultural Council, a state agency.
